Alexandra Holds Communication with the Empress of Russia and the Czar and Suggestions Are Made to End EX-PRESIDENT DILATES ON War Between Russia and Japan.

LONDON, Nov. 11 .- Prospects for the beginning of negotiations looking to peace between Russia and Japan are brighter to-day than they have on at any time since it became apparent that the continuance of the war entail needless sacrifice of life. A new factor for peace and a powerful one is the Queen of England.

It is stated upon the best authority that the Queen has been in comenication not only with Emperor Nicholas, but with the Empress of isia and the Dowager Empress within the past ten days. Queen Alex- laid." andra is sincerely desirous that hostilities in the East shall cease, and her Hebrew Technical School for Girls, at well-known friendship for Emperor Nicholas and the Empress may go Second avenue and Fifteenth street, Mrs. farther toward establishing a basis for arbitration than the efforts of Grover Cleveland officiated at the exer-

The hope of those who are working for a cessation of hostilities is the establishment of a basis upon which peace negotiations light broke through the clouded sky may be built without offense to Russia. With such a condition both par- and fell upon the face of the former tles might, without dishonor, call a halt to hostilities in the field.

PORT ARTHUR HAS NOT FALLEN.

Port Arthur has not fallen and there is no official news to indicate that it is in danger of capitulation in the near future. Rumors of the desperation of the garrison and of negotiations for surrender are found to fur turban with green slik toque, Mrs sanate from iresponsible sources. Baron Hayashi, the Japanese Minister, Cleveland was a charming sponsor for takes no stock in these rumors, and says that his advices show no change. He regards the capture of Port Arthur as certain and intimates that

until the Mikado is in possession of that stronghold there is little prospect that Japan will willingly enter into negotiations looking to calling her men tinguished men who sat upon the platoff the field. In that connection Baron Hayashi said to-day;

"After the fall of Port Arthur Japan would, I believe, be ready to treat cises, Mrs. Cleveland and her distin peace on no higher essential basis than that Russia should evacuate guished husband were the centre of all Manchuria, Japan also agreeing to a similar evacuation.

OPPOSITION TO PEACE IN RUSSIA

The two great difficulties in the way of any suggestion of peace are, On one side were ranged the 200 hundred first, the apparent opposition of Emperor Nicholas's present advisers to a girls who attend the Hebrew Technical settlement of any kind; second, the preservation of Russian prestige. built is known that Japan under certain conditions would entertain peace suggestions either from President Roosevelt or King Edward. But the American State Department and the British Foreign Office have each exthe determination to take no steps toward intervention unless ited to do so by both belligerents. This is a question of diplomacy which the seekers after peace between Japan and Russia are trying to ome, and with prospects of eventual success.

ARTILLERY FIRE CONTINUES.

MUKDEN, Nov. 10, via Tien-Tsin, Nov. 11 .- An artillery fire from both sides is continued at intervals. It is heavier on the Russian wing, where all day on Nov. 9 and also during the night the Russians shelled the Japanese positions with their heavy guns. Neither side on that date gained any advantage. As a result of the heavy bombardment by the Russians the Japanese

ave withdrawn some of their batteries from the advanced positions. It is lieved that not being ready to attack they are falling back to the hills.

The Russians gained a great advantage when toward the end of the battle on the Shakhe River they recaptured Lone Tree Hill, which has since been renamed Poutiloff Hill, in honor of the Colonel who led the last successful attack. This hill commands a large part of the plain over which the Japanese must advance.

from the force, George Bissert, Diamond's wardman, was tried for bribery, found guilty and sentenced to serve five years and six months in Sing Sing. Sergeant James Churchill, as acting-Captain, was placed in command of the East Fifth street station and Bissert was sent to Sing Sing.

Churchill and Cross did not get along well together. The Inspector made raids over Churchii's head and finally made charges of neglect of duty against him. On these charges Churchill was tried and dismissed.

In the meantime Bissert had secured a new trial and was brought back

In the meantime Bissert had secured a new trial and was brought back to the Tombs from Sing Sing. Owing to support that was withdrawn by certain men whom he had protected, he made a confession to the District Attorney which resulted in the preferment of charges against Inspector Cross. Bissert swore that he had collected in the Red Light District and distributed to certain policemen \$180,000.

IEROME PREFERRED CHARGES,
District-Attorney Jerome preferred the charges, which were served upon the inspector on March 1, 1903. There were five specifications, covering five years, three of them relating to disorderly houses and two to pool-rooms.

The trial was called on March 6 and lasted over a month. Churchill and Bissert were star witnesses against the inspector. Many immates of disorderly houses and disreputable east side characters were called and examined. George W. Morgan, at present State Superintendent of Elections, then an assistant District-Attorney, attended to the prosecution, assisted by Assistant District-Attorney Lord.

Deputy Commissioner Ebstein found Inspector Cross fully guilty on four specifications, partially guilty on one specification and guilty of conduct unbecoming an officer and neglect of duty. He was dismissed by Commissioner Greene on May 6, 1903, and immediately appealed the case.

re was no evidence introduced during the trial to show that he ver received any money from the disorderly houses he was accused of ling to suppress. Some of the testimony admitted concerned his actions hen he was a captain and had nothing to do with the matter at issue. The Appellate Division holds that the evidence was not sufficient.

At the same time that the order reinstating Cross was handed down by he Appellate Division another order was made confirming the dismissal of lapt. Hugh Fitzpatrick. This man had been for years captain of the Central ark police and knew nothing of outside duty. He was shifted to the East second street station, in sarroundings that utterly bewildered him, brought up on charges and dismissed in disgrace for failing to supplaces, the existence of which he had not the slightest knowledge. In its opinion on the Cross case the Court says in part:

We are of the opinion that the evidence adduced against the relator in-sufficient to convict him of the charges made against him. There no proof of the first charge as an independent offense or otherwise than
